☰ SUMMARY

As a front-end developer, I am driven by the challenge of creating visually appealing and user-friendly websites. My goal is to leverage my expertise in HTML, CSS, JavaScript, and other front-end technologies to develop innovative and functional web applications that meet the needs of clients and end-users. With a keen eye for design and a passion for problem-solving, I am confident in my ability to deliver results that stand out in both functionality and aesthetics.

🎓 EDUCATION

Junior **| Faculty of Computers & Information - South Valley**
2020 – 2024
Cumulative GPA: 3.3/4.0 (A-)

📋 PROJECTS
